المجلس الاوروبي الفلسطيني للعلاقات السياسية

Dear High Representative Josep Borrell

Dears in MENA.2 Middle East II - Israel, occupied Palestinian territories and MEPP

We would like to thank you for your letter, Ares (2023)326...

We believe that your follow-up to the situation on the ground increases your responsibilities, which we in the European Palestinian Council for Political Relations and many Palestinians believe that it must go beyond condemnations to actions, and decisive positions, and gain time to save the lives of many Palestinians who are still looking to the Europeans and the international community to stop the Israeli massacres.

As you follow, you certainly knew that seven children and four women had been killed, until the writing of this letter, during the last 48 hours in the Gaza Strip, using warplanes and missiles.

The occupation forces continue to execute men in the West Bank and Gaza, violating international agreements, laws and truces signed with the guarantee of other countries.

The occupying power is still targeting civilians and killing children only because it is sure that it will not be held accountable for these crimes.

The Israeli government announced that he was covered and supported by The United States and other friends (EU states) to continue his killing process that has been going on for 75 years.

Let's save the lives of the innocent in Palestine and restore security for the children there.
